Profile

15+ years of programming, 8 years in the business. I am a seasoned software engineer with a comprehensive skill set across multiple industries, including finance, e-commerce, and engineering.

My career includes managing core system architecture, cloud services, streamlining CI/CD processes, native desktop and fullstack development. I've taken on strategic responsibilities, like recruitment and team management, and handled legal and compliance aspects in financial technologies.

Experience

2023–2024 📍 UK, DE, DK & SE

Ikano
Fullstack developer
Project Manager

Managed multiple international cross-domain projects where we migrated online banking systems. Deployment required system switchover without business interruption. Additionally worked on system audit, life cycle management, and system security.

Tech used: C#, React, Javascript, Typescript, CSS, HTML, OAM, Curity IAM, HAAPI, oAuth, BankID, Jenkins, Sitecore CMS, MsSQL, ASP.NET, .NET Framework, .NET Core, .NET

2023 📍 Malmö, Sweden

Panduro
Fullstack developer

General fullstack development. Notably, implemented a new search engine for customers online e-commerce retail system and tooling for marketing and advertisement.

Tech used: C#, Javascript, CSS, HTML, Team City, Sitecore CMS, MsSQL, ASP.NET, .NET Framework, .NET Core, .NET, SEO

2022–2023 📍 Malmö, Sweden

Ikano
Fullstack developer

Development of secure online banking systems. Customers can log in and access their bank accounts, mortgages, savings, apply for loans and credit cards, etc. Fullstack, Sitecore CMS, IT, tooling and CI/CD.

Tech used: C#, React, JS, CSS, HTML, Docker, OAM, Curity IAM, HAAPI, oAuth, BankID, Jenkins, Sitecore CMS, MsSQL, ASP.NET, .NET Framework, .NET Core, .NET

2022–2024 📍 Malmö, Sweden

Omegapoint
Consultant

I worked as a consultant at the dep. of Financial Technologies and dep. of Commercial Solutions. We offered customers strategic partnerships that included development services, strategic guidance as well legal and cybersecurity advice.

Tech used: n/a

2020 - 2022 📍 Malmö, Sweden

StruSoft
Manager

Managed a team of developers, including their contracts, salaries, tasks etc. Assigned additional business responsibilities such as hiring new talents to the team and ensuring an adequate talent pool that aligned with upcoming projects and business goals.

Tech used: n/a

2018–2022 📍 Malmö, Sweden

StruSoft
Technical Lead

Assigned responsibility of core systems and its architecture. I enabled factory production robotics integration, built data translation tools and a new secure API for external system integration. Help rebuild systems to be cloud ready. Built custom automated database migration functionality into the back end systems. CI/CD tooling and more…

Tech used: C/C++, C#, XAML, JS, CSS, HTML, AutoCAD, Tekla, BricsCAD, Elemantic, .NET Framework, .NET Core, MFC, MVC, WPF, IAM, OAuth, MsSQL, ASP.NET, EF, Blazor, Razor, WASM, Team City, Swagger, AWS, Docker

2016 – 2018   Malmö, Sweden

StruSoft
Programmer

Built native desktop CAD tooling for engineers, developed algorithms to optimize usage of reinforcement and construction materials, generation of professional legal construction drawings and documents from BIM data, admin tooling, and provided front line support for engineers in north Europe across all system domains.

Tech used: C/C++, C#, AutoCAD SDK, .NET Framework, MFC, MVC, WPF, MsSQL, ASP.NET, Team City

Education

Lund University
